York, ME 03909

Pick Up your barrel:
Town Meeting Day
Saturday, May 5th, 2007 (8am-noon)
Recreation Building Parking Lot
School St., Wenham

SkyJuice Rainbarrel features:

- ◆ 55 gallon recycled food grade barrels
- ◆ Fully screened intake port keeps mosquitoes, insects, and debris out
- ◆ The lid can be removed for easy cleaning and for storing hoses inside the barrel during the winter
- ◆ The brass spigot can be connected to a regular hose or a drip irrigation system
- ◆ The over flow tubing is used to direct water away from the foundation, back into the normal drain, or to join multiple barrels for additional capacity.

For more information go to:

YOU

are becoming part of your local watershed by slowly releasing rainwater from the rain barrels into your gardens. Allowing the water to soak into the soil decreases stormwater runoff and helps recharge your groundwater.

WE are all connected to the local watershed.

Be a Part of the Solution!
